

WHAT CAN YOU DO TO

MAKE YOUR
PHARMACY
STAND-OUT?

WHY PARTNER WITH MD CONNECTED?

MD CONNECTED is one of the fastest growing healthcare providers in Ontario with an outstanding reputation for patient and partner relations.

WHAT SETS US APART?

At MD Connected our mission is to make healthcare accessible to everyone and that includes you. This is why we have created an option to add a healthcare solution to your location for every budget and clinical requirement. We currently offer 3 options.

OPTION 1 - TELEMEDICINE CLINIC

OPTION 2 - VIRTUAL CARE KIOSK

OPTION 3 - VIRTUAL CARE

OPTION 1 - TELEMEDICINE CLINIC

CONTACT US FOR YOUR CUSTOM QUOTE

ABOUT TELEMEDICINE

A telemedicine clinic is just like a traditional clinic, only the doctor will appear on a large screen using secure video conferencing technology. Patients are registered and triaged upon arrival by a highly trained telemedicine coordinator who will also assist with facilitating the visit. The patient, doctor, and telemedicine coordinator are all involved in a successful encounter.

Telemedicine appointments are completely covered by OHIP.

INCREASE PROFITS

Onsite clinics generate additional revenue through prescriptions and over the counter purchases as well as repeat business.

COMPETITIVE ADVANTAGE

Rise above your competition by providing both medical care and medications that will enhance the customer experience.

DRIVE TRAFFIC

MD Connected partners have seen a 35-45% percent increase in patient traffic.

WHY TELEMEDICINE?

100% UP TIME

No need to worry about missed days or lack of physician coverage.

INCREASE PATIENT SATISFACTION

96% of our patients felt as comfortable receiving care through telemedicine as they would have in-person and would use telemedicine again.

PROFESSIONAL SET UP

Clinics will be set up professionally and in a manner to enhance the patient experience.

WHAT IS REQUIRED OF YOU?

Our ask of you is a room for examinations of approximately 150 sq ft, access to a washroom, and a waiting area. We will then facilitate:

- **Clinic equipment setup**
- **Marketing collateral**
- **Recruiting and training of staff**
- **Day-to-day operations**

We can have a clinic setup and operational in less than 5 weeks.

At the end of the appointment the patient will be given a prescription which can be directly filled at your pharmacy.

OPTION 2 - KIOSK

STARTING AS LOW AS \$500 PER MONTH

WHAT IS THE VIRTUAL CARE KIOSK?

Through our Virtual Care Kiosk, patients can connect directly with a Canadian licensed doctor in minutes for general medical advice, prescriptions/renewals, medical notes, requisitions, and referrals.

Utilizing your existing consultation room, this easy, turn-key setup adds value to your customer experience.

Increase prescription capture rate

Quick and easy implementation

Virtual visits covered by provincial health plan

Immediate ROI

Low monthly cost

On-demand technical support

This convenient solution brings value to your patients, increases your total prescriptions and drives in-store sales all at a low monthly cost.

HOW DOES THE VIRTUAL CARE KIOSK WORK?

HOME SCREEN

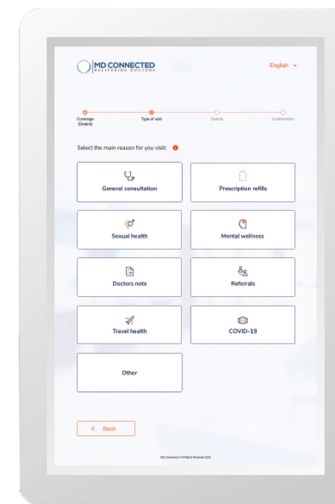

- Our easy-to-use Virtual Care Kiosk will begin by outlining how to start a virtual visit.
- Patients will start the process by completing a registration form outlining their demographics and reason for visit.

CHECK-IN

- Once registration is complete, patients will check into the virtual waiting room to let the doctor know they are ready to be seen.

WAITING ROOM

- Inside the waiting room they will find tips on how to make their visit a success.
- The patient will then connect with the doctor by secure chat, phone, or video.

At the end of the consult the prescription will be faxed directly to your pharmacy to be filled.

OPTION 3 - VIRTUAL CARE

FREE

WHAT IS VIRTUAL CARE?

The MD Connected Virtual Care model allows patients to get the care they need from the comfort of their own home. MD Connected will embed our scheduling system onto your websites homepage for quick and easy access to book a virtual appointment. This provides a value add service to your customers and allows for prescriptions to be sent directly to your pharmacy. No lost revenue!

SIMPLE, COST-FREE IMPLEMENTATION

Given this tier package, the MD Connected team will implement a link to our booking platform.

CONFIDENTIAL, SAFE & SECURE PLATFORM

Our virtual care platform is secure and our nurses and physicians ensure full confidentiality for all patients.

At the end of the virtual care appointment, prescriptions will be referred to pharmacy.
